CUR has been working around the clock to make sure valuable resources are available to you during this time of need. From "How to make a virtual classroom?" to various CUR journal articles related to UR in virtual environments, you can find all that you need and more in our newly released Member Resource.
Library. This library is being updated daily so make sure to not miss out on any new information, resources, or virtual events to attend.

Because we know that everyone benefits when diverse ideas and perspectives are shared, if you know of someone that can contribute to or benefit from CUR member resources outside of our community, share this link with your colleagues so they can join in the conversations. We have opened up our community until April 30.

SPUR CFP: UR and Climate Change
Consider submitting a proposal for the following theme issue of Scholarship and Practice of Undergraduate Research:

- Undergraduate Research and Climate Change | Spring 2021 | Proposal Deadline: April 7, 2020

Have a topic that you would like to write about? Proposals can be submitted to the SPUR portal at any time.

#POH2020 Goes Virtual
The CUR National Office has been researching ways to honor those who had been accepted to the 2020 Posters on the Hill celebration. Though the in-person event has sadly been canceled, we have big plans to make the most of the situation. We are organizing a virtual poster session to take place on April 21 on Twitter. More information will be coming about the event and our participants have already been notified. Have questions? Reach out to Liz Hains.

AURA Nominations Deadline Extended
What makes your institution's undergraduate research program exemplary? CUR is now accepting applications for the Annual CUR Campus-Wide Award for Undergraduate Research Accomplishments (AURA). Read up on the process and start your letter of intent (LOI) today. Deadline is now April 27.

Undergraduate Research Week: What Are You Doing?
Undergraduate Research Week will take place April 20-24, 2020. To celebrate and support our members, we ask that you submit information about how you will showcase undergraduate research, including what your plans were and how you may be changing them. Send your submissions that celebrate the work that students achieved this year, regardless of when or how that will happen to our membership team. We will be highlighting them on our website during the week of April 20. We are accepting submissions until April 3. Submit today!

CUR Member Story:
USciences' UR Festival Goes Virtual
Considering the fast-evolving global coronavirus disease (COVID 19), and concern for the safety of the university community members and guests, the Center for UR at the University of the Sciences in Philadelphia moved select events of its three-day (March

Mentor Nominations:
Health Sciences Division
The Council on Undergraduate Research (CUR) Health Sciences Division seeks to honor
10-12, 2020) UR Festival online. Virtual presentations included a Virtual Research Poster Exhibit, Elevator Research Talks, a 2019 CUR Events Slideshow, and an “Images of Research & Scholarship” with a Popular Choice Award going to the image with most “likes” on Facebook.

SC INBRE: Student-Initiated Research Projects Program

The new SC INBRE Student-Initiated Research Projects Program (SIRP) aims to enrich the academic experience of students and to better prepare the future generation of researchers and investigators in South Carolina. SIRP applications must apply bioinformatics tools to biomedical research questions and fit within the broad scientific focus areas of SC INBRE. Deadline is May 15.

NSF Website: COVID-19 for Awardees, Researchers & Reviewers

The National Science Foundation (NSF) has developed a new website for the research community with detailed guidance on the coronavirus (COVID-19), which includes guidance for awardee organizations, researchers, and reviewers of NSF proposals. This website will be updated as new developments arise. Visit >>

NSF Funding Opportunity: Build and Broaden ($B^2$)

The Directorate for Social, Behavioral, and Economic Sciences of the National Science Foundation (NSF) has announced the new opportunity Build & Broaden ($B^2$), focusing on research in human development, learning, and social behavior, and inviting the submission of conference proposals in FY 2020. Proposals should be designed to foster partnerships and build research collaborations among institutions that include at least one minority-serving institution. The proposal deadline is May 1, 2020.
