

## Scholars Transforming Through Research (STR) 2022 – Application Template Deadline - Wednesday, 7th September, 2022

### Proposal Title\*

Please use title case. (Example: My Experiences as an Undergraduate Researcher). Enter the FULL TITLE of your proposal. This will be used in the final program.

0/30

### Team Members\*

This program will provide an opportunity for institutional teams to apply. Teams will consist of one campus representative team lead and up to two student researchers. More than one group can apply from an institution, but the same campus representative cannot be listed on multiple applications. CUR membership is not a requirement to apply. Campus representative involvement is required for the success of this program. Any team member can complete the application, but the campus representative should be designated with the available checkbox in the application.

Congressional District Look-up Reference: <http://www.house.gov/representatives/find/>)

#### Team Member 1

- Title
- First Name\*
- Last Name\*
- Campus Representative\* (*checkbox to indicate the team member serving in this role*)
- Degree
- Email\*
- Profile Photo (upload)
- Institution Type\* (*from Carnegie Classification list*)
- Please select the best option regarding your experience.\*
  - Currently enrolled in an undergraduate research experience
  - Completed an undergraduate research experience
  - Both currently enrolled in and already completed an undergraduate research experience
  - Campus representative supporting undergraduate research in some capacity)
- Congressional District for Institution\* (*1-53 + At-Large – Reference the Congressional District Look-up Reference link if needed*)
- Address Where Registered to Vote\*

- Congressional District for Voting Address\* (1-53 + At-Large – Reference the Congressional District Look-up Reference link if needed)
- (Expected) Graduation Year - For Student Researchers Only\*
- (Anticipated) Degree - For Student Researchers Only\*
- Affiliation 1
  - Institution
  - City
  - State
  - Country

+ ADD ANOTHER AFFILIATION

+ ADD ANOTHER TEAM MEMBER (can add up to a total of three team members. Please note that one of your team members MUST BE a faculty or mentor from your institution serving as the campus representative.)

**Type of Support Was There for the Research Experience (if applicable)**

Please indicate if any of the team members listed on the application received funding to complete their research experience.

- Stipend
- Scholarship
- Supported directly or indirectly by federal funds (e.g. NSF, NASA including Space Grants, Dept. of Ed. [e.g., McNair], NOAA, DOE, DoD, etc.)
- State funds
- Funds from private foundation
- Funds from institution
- Other
- N/A

**Additional Details on Sources of Funding (if applicable)**

If any team members listed on the application received funding to complete their research experience, please provide additional details such as: source of funding or funding agency, program officer's name, grant number, name of scholarship fund, etc.

0/300

**Description\***

Submit your description text only (e.g. no title, authors, references, etc.). The main text of descriptions may not exceed 450 words and should include approximately 150 word narrative from the perspective of each team member. This section should describe the impact of the undergraduate research experiences and how team members have been transformed by the research, scholarship, or creative activity process. Research projects do not have to be fully complete to apply, but student researchers should either be currently enrolled and/or have completed at least one undergraduate research experience. The undergraduate research experience can be from a variety of types (e.g. CUREs, independent research project with traditional mentor/mentee, research group experience such as summer research, etc.). Campus representative should ensure student researchers have enough substantive experience with research experiences to convey the impact of their experiences.

0/450

**Goals for Participation\***

Please list the goals of your team for applying to participate in this pilot program and what you are hoping to accomplish.

0/300

**Disciplinary Area Best Aligned With Your Research Experience\***

- Arts and Humanities
- Biology
- Chemistry
- Education
- Engineering
- Geosciences
- Health Sciences
- Mathematics and Computers Sciences
- Physics and Astronomy
- Psychology
- Social Sciences
- Interdisciplinary
- Other

**Permission to Publish\***

Check this box to give us permission to publish your submission on electronic media and/or in hardcopy if it is accepted for participation.

**Team Member Approval\***

I confirm that this submission has been approved by all team members.

**Team Members Will Attend\***

I confirm that team members will register in full to attend and participate in the program activities.

**Additional Notification Information**

Please indicated the name and email of any additional individuals that you wish to be notified should you be accepted to participate (e.g. Government Relations Officer (or similar role), Dean, Provost, etc.)

**SUBMIT**
