**Institutional Missions and Undergraduate Research**

Belk Library opened in January of 2000 and instantly provided Elon University with a rich information resource. The building has more than 200,000 volumes and a variety of electronic resources, including 6,000 online journals and 148 computers. Years of thoughtful planning resulted in a library carefully designed to fit Elon’s active learning style. Twenty-one group study rooms facilitate collaborative learning. Elon hosts the 2001 CUR Annual Council Meeting.
