

i love working with Heather because...

...she has inhuman strength to bear whatever comes her way.

If she doesn't know how to do something or how it works, she will figure it out, improve upon the existing process, and be able to teach it to someone else in the blink of an eye.

My favorite part of working with Heather is her thoughtfulness, her ability to connect all the dots and synthesize information. Her supportive and collaborative nature. Her ability to hear what isn't being said and share it back in a way that is approachable and feels safe. Her curiosity and desire to get to the root of complex issues and understand how all of the parts come together to impact situations.

I love working with Heather because she is calm and thoughtful in everything she does. I also love that she never has anything unkind to say about others.

When planning events, Heather prepares for all possible scenarios, works with the team to brainstorm on solutions to ensure the best possible outcome and helps minimize customer inquiries. Heather is also full of surprises. She has a vast knowledge about life.

I love working with Heather because I can always count on long calls that go back and forth with actual work and life, but also she can help me see the other side of things and ultimately, together, we support each other.

HEATHER WAKEFIELD

Sr. DIRECTOR OF PROGRAM STRATEGY, DEVELOPMENT, + DESIGN

Fueled by Curiosity

Heart of Team CUR and Systems Thinking

Compassionate - If Heather could save and provide peace in the world, she would! Heather is always willing to find a solution, even if it's outside of her realm.

Remaining calm under pressure

Her Superpowers are...

Thoroughness & Attention to Detail

Mary Poppins! She is always ready for anything.
