

i love working with Todd because...

I love Todd's willingness to jump in and help colleagues and offer encouragement to others.

My favorite part of working with Todd is that he is always able to find the good in any situation (even/especially the tough ones). I also appreciate his sense of humor and vast knowledge of all things TV.

My favorite part of working with Todd is his can-do mentality. His ability to jump from detailed tasks to ideation to emceeing an event and back without missing a beat. The fact that he has nicknames for everyone - even if he isn't always willing to share them. That he can always be counted on to bring the quirky questions in interviews that highlight the dynamics of our team. Plus, he is clearly a Taylor fan.

Todd is my "go to" when I need assistance or have a question regarding the website or an email that went out. He points me in the right direction if I missed something and is quick to have a solution to an issue. Todd is great to work with and funny. Also, I feel with Todd we are closer to starting our TikTok Channel, hosted by "TicTock Todd"!

He lets his colleagues continuously push him to grow and does it with grace, humbleness, and a steadfast dedication to personal improvement. I am jealous.

My favorite part of Todd is that he handles the jokes with grace, he always knows some crazy new show to watch, he is absolutely amazing to work with, and I trust him completely. Plus, he checks in when the Bills lose to make sure I'm ok.
